

Bill Avenue®

Sr. No.	Steps to Integration
1	We request you to let us know the IP address from where you will make the API calls, so that we will whitelist the same and share the credentials.
2	You can download the Required documents by clicking on the given link :- https://links.avenues.info/downloads/BBPS-Documents.zip
3	Kindly Import our public certificate shared in the download (Refer file : "billavenue UAT Certificate.crt").
4	Please refer the integration kit, which elaborates the various API calls with the request and response parameters. Refer file : "Bharat Bill Payment System_Version_1.5.pdf").
5	<p>Once you are able to connect to the below mentioned URLs then please test the sample UAT cases and share the response with us. Please note: it is mandatory to complete this step before going Live.</p> <p>(Refer file : "Bharat Bill Payment System_Version_1.5" AND "Avenues_BillPay_UAT_Sample_Data_1.5.xls").</p> <p>Biller Info: https://stgapi.billavenue.com/billpay/extMdmCntrl/mdmRequestNew/</p> <p>Bill Fetch API: https://stgapi.billavenue.com/billpay/extBillCntrl/billFetchRequest/xml</p> <p>Bill Payment API: https://stgapi.billavenue.com/billpay/extBillPayCntrl/billPayRequest/xml</p> <p>Transaction Status API: https://stgapi.billavenue.com/billpay/transactionStatus/fetchInfo/xml</p> <p>Complaint Registration: https://stgapi.billavenue.com/billpay/extComplaints/register/xml</p> <p>Complaint Tracking: https://stgapi.billavenue.com/billpay/extComplaints/track/xml</p> <p>Validation URL: https://stgapi.billavenue.com/billpay/extBillValCntrl/billValidationRequest/xml</p>
6	<p>Kindly ensure that you need to design the front end based on the guidelines as set by NPCI.</p> <p>Please note once you have designed the front end you need to share the screenshots of the same with us.</p> <p>This would be verified by NPCI. If approved by NPCI, your production credentials will be generated and shared with you.</p>
7	Refer the document on How to build your complaint management system: "Transaction Complaint Disposition BBPS.pdf".
8	Kindly ensure the Branding is maintained and use the Logo shared.
9	<p>BalanceCheck API: You would need to call this API at regular intervals to keep a tab on the balance deposit. Please note: if the balance is Nil, your transactions would fail. This call can be made only in the Production environment. Please refer File: "BBPS_BalanceCheck_API.pdf".</p> <p>Deposit Enquiry URL: https://stgapi.billavenue.com/billpay/enquireDeposit/fetchDetails/xml</p>
